The training is delivered by Fatou Mendy Sambou from Public Health Somerset and Helen Fielden from Spark Somerset and covers:

- The latest information about how the vaccines work, how they're made and possible side effects.
- Common myths and misconceptions about the vaccine.

- The basics of how to have open, supportive conversations.

Spark Somerset has also trained a team of volunteer Vaccination Buddies who can offer 1-2-1 telephone support to people who are worried or unsure about having the vaccine.

The Buddies come from all walks of life and have the right skills to support people to make informed decisions about having the Covid-19 vaccination. They speak a range of languages from Portuguese to Dutch.

People can be referred (or self-refer) to the scheme and a fully trained Vaccination Buddy will then contact them by phone to discuss their concerns and offer information and reassurance. Please note that Vaccination Buddies cannot give specific medical advice.
