Our ref: A303 Sparkford to Ilchester

Dear Owner/Occupier

**A303 Sparkford to Ilchester Dualling Scheme – overnight works**

We are writing to inform you that from Monday 13 September to Saturday 18 September we will be doing some overnight works on the A303 between Podimore roundabout and Sparkford roundabout.

We will be working between 8pm and 6am and we will use temporary traffic lights to reduce traffic down to a single lane so that we can work safely. Emergency access will be maintained.

The work we will be carrying out is called coring. Coring enables the site team to take samples of the road, which will show the layers and make-up of the road. The work can be noisy at times as a drill is used to remove the materials from the road.

We are aiming to complete the work overnight on Saturday 18 September, but should there be delays due to unforeseen circumstances, we have an additional two nights planned as a contingency.

We apologise in advance for any disturbance this work may cause you.

Yours sincerely

**Elliot Hayes**  
Project Manager
